

QUICK GUIDE 1 OF 2

Take attendance

Scan the driver first. The app fills their usual route and bus automatically.

Before you start

Allow camera access. The driver's usual route and bus should already be saved in their profile.

1**Open attendance**

On Home, tap Take attendance.

2**Place one face in the frame**

Hold the phone steady. Make sure the driver's face is clear and well lit.

3**Scan the face**

Tap Scan driver's face and wait for the driver's name to appear.

4**Check the details**

Check the name, route and bus. Tap Edit only when the driver is using a different route or bus today.

5**Mark the driver present**

Tap Mark present. Wait for the confirmation before moving to the next driver.

If the face scan does not work

Tap Enter attendance by hand. Choose the driver, choose the reason, add a short note and tap Record attendance.

QUICK GUIDE 2 OF 2

Add a driver

Save the driver's normal route and bus once, then add clear face photos.

1

Open the driver form

On Home, tap Add a driver. You can also open Drivers and tap Add.

2

Enter the main details

Enter the full name, employee ID, depot and phone number.

3

Set the usual work

Choose the route and bus the driver normally uses. Attendance will use these automatically.

4

Save and add photos

Tap Save and add face photos.

5

Take clear face photos

Follow the camera prompts. Keep one person in the frame and use even light.

6

Finish

Save the photos. The driver is now ready for face attendance.

Good face photos

Use a clear face, no cap or sunglasses, even light and a steady phone.

Change a driver's normal route or bus

Open Drivers, tap the driver's name, tap Edit, change the usual route or bus, then save.
